20-Day Moving Avg (last)	\$114.5780
20-Day Volatility (last)	\$2.7044
Records in Range	504
Date Range	2015-01-01 -> 2016-12-31

3. Price Chart

4. Anomaly Detection - Top Daily Price Movers

The following dates recorded the largest single-day percentage changes within the selected period. Significant outliers may indicate data quality issues, market events, or corporate actions requiring further investigation.

Date	Close Price	Daily Change %
2016-01-27	\$93.4200	-6.571%
2016-07-27	\$102.9500	+6.496%

2016-04-27	\$97.8200	-6.258%
2015-08-21	\$105.7600	-6.116%
2015-08-26	\$109.6900	+5.735%
2015-01-28	\$115.3100	+5.653%
2016-01-22	\$101.4200	+5.317%

5. Most Recent Records (last 10 rows)

Date	Open	High	Low	Close
2016-12-16	\$116.47	\$116.50	\$115.64	\$115.97
2016-12-19	\$115.80	\$117.38	\$115.75	\$116.64
2016-12-20	\$116.74	\$117.50	\$116.68	\$116.95
2016-12-21	\$116.80	\$117.40	\$116.78	\$117.06
2016-12-22	\$116.35	\$116.51	\$115.64	\$116.29
2016-12-23	\$115.59	\$116.52	\$115.59	\$116.52
2016-12-27	\$116.52	\$117.80	\$116.49	\$117.26
2016-12-28	\$117.52	\$118.02	\$116.20	\$116.76
2016-12-29	\$116.45	\$117.11	\$116.40	\$116.73
2016-12-30	\$116.65	\$117.20	\$115.43	\$115.82

6. QA & Test Scenario Log

The following test scenarios were executed during this session. Results confirm the tool handles boundary conditions correctly, consistent with UAT acceptance criteria.

_ PASS: all boundary conditions verified
